PROFESSIONAL SUMMARY

Results-driven aspiring Product Manager with hands-on AI/ML engineering experience, certified PM training, and a perfect track record across all Airtribe PM projects. Skilled in product discovery, AARRR funnel analysis, RICE prioritization, OKR/KPI definition, user research, roadmapping, and GTM strategy. Seeking APM, Product Intern, or Product Analyst roles at high-growth startups and tech companies.

WORK EXPERIENCE

Analyst | Cognizant, Bengaluru

Nov 2025 – Feb 2026

- Assisted in diagnosing and resolving enterprise client issues related to software access, system configuration, and user account management, surfacing recurring pain points as actionable product insights.
- Documented and tracked user-reported issues using internal tools, enabling pattern recognition that helped prioritize escalations to product and engineering teams.
- Gained hands-on exposure to enterprise SLA workflows and cross-functional collaboration between support and product teams, developing early instincts for translating user problems into product opportunities.

Software Engineering Intern | Loginware Softtec Pvt. Ltd., Bengaluru

Jan 2025 – Mar 2025

- Scoped, built, and shipped **Vigilant Eye 2.0** - AI-powered surveillance system (YOLOv8, Python, MySQL) with face & animal detection, live monitoring, and automated alerts.
- Defined product requirements for an **Inventory Management System** (Python, MySQL); collaborated on testing and UI iteration to improve usability.

PRODUCT MANAGEMENT PROJECTS

TM Café — Product Strategy & Growth Capstone | TrulyMadly [\[Live Demo\]](#)

2026

- Led end-to-end product discovery across 12M+ users; conducted 50+ user interviews, benchmarked 6 competitor apps, and analysed Play Store reviews to identify trust, discovery, and conversion barriers.
- Prioritised 2 high-impact solutions out of 15 ideas using RICE framework; designed monetization strategy targeting 15% paying MAU with **₹78 Cr annual revenue potential** and a path to ₹100 Cr scale.
- Delivered full GTM strategy, North Star Metric, and KPIs (D14 retention, free-to-paid conversion, referral loops) within 15 days; built interactive prototype across 4 core user flows with AI-assisted expert routing and gamification.

PM Fellowship Projects | Airtribe AI PM Launchpad

2026

- Twitter/X (AARRR Funnel & Growth)**: Mapped end-to-end user acquisition funnel, identified 2 critical drop-offs across activation and retention stages, and proposed targeted A/B test hypotheses to drive growth.
- Zomato (Transparency Architecture)**: Addressed order batching complaints and misleading ETAs by designing a dynamic "queue position & delay explanation" engine — shifting from rigid timelines to honest, real-time context. [\[Live Demo\]](#)
- Plan a Plate — MealNest**: Designed and prototyped a personalised meal planning system for professionals, students, and time-constrained users — enabling smart meal decisions with minimal effort. [\[Live Demo\]](#)
- VitaFit — Vita Engage Plus**: Authored a comprehensive PRD and designed "Vita Engage Plus" — a point-based gamification feature to drive long-term user retention and healthy habit formation. [\[Wireframe\]](#) [\[Live Demo\]](#)

CERTIFICATIONS

AI Product Management Launchpad | Airtribe | [Certificate](#)

2026

Claude for Product Builders | Anthropic | [Certificate](#)

2026

Python for Everybody | University of Michigan, Coursera | [Certificate](#)

2024

ACHIEVEMENTS & LEADERSHIP

- Rajyapuraskar Award** — Highest honour in Bharat Scouts & Guides, awarded by the Government of Karnataka (2020); recognized for leadership, community service, and character development.
- NSS Volunteer** — Participated in a 7-day rural outreach camp (2024); led community education and sanitation drives across a village in Karnataka.

EDUCATION

Bachelor of Computer Applications (BCA) | RNS Institute of Technology, Bengaluru

2022 – 2025

CGPA: 7.64 / 10 | Coursework: Databases, Software Engineering, Data Structures, AI Fundamentals

SKILLS & TOOLS

PM Tools: Notion, Jira, Figma, Miro, Confluence

Analytics: SQL (Basic), Excel, AARRR Funnel, KPI Definition, OKRs, A/B Testing, North Star Metric, Growth Metrics

Core PM: Product Strategy, User Research, PRD Writing, Agile/Scrum, Roadmapping, RICE, GTM Strategy, Wireframing, Stakeholder Management, Competitive Analysis, Monetization, Retention

Technical: Python, AI/ML (YOLOv8), APIs, System Design, LLMs & RAG Architecture, MySQL
